The Naked Stage

The Naked Stage is a working collective of performing artists dedicated to the development of theatre on the East End of Long Island. The members of The Naked Stage believe in the possibilities generated by the collaboration of devoted people. We wish to provide a focal point for the encouragement of theatre and all it's associated arts. The Naked Stage: Works in Progress serves as an incubator and laboratory for actors, writers, directors, dancers, composers, musicians and designers to practice and explore their craft free from the constraints of production schedules, budgets, criticism and public performance.

The 6th Annual Free Winter Film Series in association with The East Hampton Library

Sun 1/17 The Drummer 4:30 pm

Hong Kong-Taiwan-Germany | 2008 | Drama | Mandarin & Cantonese w/ English subtitles

In the East, the drum is the king of all musical instruments. The intense sound of the drum can penetrate a man's body. The solemn beat of the drum can open a man's heart. The powerful vibration of the drum can awaken a man's soul. Sid, the rebellious son of Kwan, a controlling and savage triad boss in Hong Kong, has to flee to Taiwan upon enraging his father's adversary, a powerful tycoon and underground business leader. Hiding out in the mountains, Sid encounters a group of Zen drummers whose mesmerizing art, rigorous physical training, and austere way of life pique this hostile urban young man's interest and he requests to join the group. Although Sid despises his father, he is turning out to be a younger version of him: wild and defiant. Immersing in the world of the Zen drummers eventually converts him into a firm and focused young man. Sid's independence from the triad life and his father is profoundly challenged, however, when a twist of fate awaits him back home in Hong Kong and forces him to choose between loyalty to his family and his new found faith in himself ...

Sun 1/24 The Window 4:30 pm

Argentina/Spain | 2008 | Drama | Spanish w/ English subtitles

It is a significant day for 80 year old Antonio. After an absence of many years, his estranged son is coming to visit. All must be perfect. There will be a toast with a very special champagne; an embrace; warm words that may finally bridge the gap between them... But before, Antonio must wait. Bedridden, he looks out his window at the Patagonian landscape and sees light and life, the past and the present, while sensing the future. He decides to secretly leave the house, unseen by his faithful caretakers, to take what might be a last walk in his fields, breathing the air, treading the earth, inhaling the scent of the land that had been his life. What could otherwise seem like insignificant memories or moments in one's life, take a special, beautiful meaning and weight in this poetic, humanistic film. Distinguished Argentine filmmaker Carlos Sorín ('Bombón', 'Historias Minimias') once again trains his camera on the small stories written by life, on the humanity behind human beings. By casting the great Uruguayan writer and scriptwriter Antonio Larreta in the lead role, Sorin establishes a link between fiction and reality that makes the protagonist's fears, hopes and wishes even more palpable.

Sun 1/31 Gigante 4:30 pm

Uruguay | 2009 | Comedy-Drama | Spanish w/ English subtitles

Jara is a shy and lonely 35-year-old security guard at a supermarket on the outskirts of Montevideo. He works the night shift, monitoring the surveillance cameras of the entire building. One night Jara discovers Julia, a 25-year-old cleaning woman, through one of the cameras and is immediately attracted to her. Night after night, he watches her on the cameras while she works. Soon he starts following her after work: to the cinema, the beach and even to a date with another man. Jara's life becomes a series of routines and rituals around Julia, but eventually he finds himself at a crossroad and must decide whether to give up his obsession or confront it.

Culinary Demonstrations Daily 2:00 pm Free

Please join us for culinary demonstrations at your local Williams-Sonoma. Our culinary demonstrations will show you how to use and care for products found throughout the store.

Technique Classes Free

The slower pace of the winter months presents a perfect opportunity for spending more time in the kitchen, experimenting with techniques, ingredients and recipes. To help you get started, we've scheduled a series of technique classes at your local Williams-Sonoma. You'll find them informative, inspiring and motivating – and also fun. Each technique class offers how-to demonstrations, innovative recipes and delicious samplings of the completed dishes. Space is limited, so please call or visit your local Williams-Sonoma store for times, and to sign up. Join us in our stores for a three-part series, where we'll demystify essential cooking techniques and teach you which pans and temperatures to use to get delicious results every time. We'll also demonstrate our NEW All-Clad d5 line, showing you how this new technology can make a big difference in your cooking.

Sun 1/10 Braising

The first class will show you how to braise, a technique that transforms relatively tough cuts of meats and fibrous vegetables into tender, full-flavored fare. Braised dishes are ideal for weeknight meals as well as for entertaining. You'll learn which foods are the best for braising and what pans to use—and sample some delicious recipes.

Sun 1/17 Sauteing and Pan Frying

The second class in our series will explain the differences between sautéing and panfrying—two of the techniques most commonly used at home. We'll show you how to correctly sauté, a quick cooking method that yields delicious golden vegetables with just the right amount of crunch. You'll also learn to panfry, a technique that is excellent for cooking larger pieces of meat and firmer vegetables.

Sun 1/24 Searing and Simmering

The third and final class in our series will demonstrate how to sear meats and vegetables, and to choose the correct pan and cooking temperature. You'll also learn how to simmer, a technique that's used for making soups, sauces and more. We'll show you the difference that the new All-Clad d5 technology can make with your food preparations.

Sat 1/9 Winter Family Nature Walk 10:00 am

Walk Leader: Crystal Possehl, SoFo Nature Educator. In the winter it seems as if the natural world is asleep. Join Crystal on this one-mile walk through swamps, fields, woods, and near a pond to discover which animals are awake, how others sleep through the winter, and what some plants do to protect themselves from the cold. Bundle up and bring some sunflower seeds to feed to birds at the end of the walk; they appreciate the extra treats! As this is a one-mile walk we suggest children must be 5 years of age or older to attend.

Sat 1/16 Winter Waterfowl Count Sunrise to Sunset

Field Count Leader: Jim Ash, SoFo Executive Director. At one time a great variety of waterfowl wintered on Long Island. Now, due to habitat loss, food scarcity, and the introduction of nonnative species of water birds, our wintering population of waterfowl is slowly diminishing. To assess this situation and record the number of overwintering waterfowl the New York State Ornithological Association sponsors an annual waterfowl count throughout the state. Experienced birder or otherwise, sign on as a member of this year's Amagansett to Shinnecock count team. Call us at (631) 537-9735 for further information.

Sat 1/23 Whales, Dolphins, and Porpoises, Oh, Yeah! 10:00 am \$3 materials fee

Nature and Craft Program for Children. Program Leader: Heather Abrams, SoFo Nature Educator. What is a mammal? Do mammals live in the sea? They sure do! In this program with Heather, children will learn about some of our ocean mammals including the giants, the whales, and the smaller guys, dolphins and porpoises, and what time of year we're most apt to see them in Long Island waters. And what is more fun then to finish the program by painting one of these creatures of your own? Recommended for children 4 years of age and older.

Sat 1/30 Nighttime Owl Prowl 7:30 pm

The Mill House Inn East Hampton NY - "Your Home in the Hamptons"

Walk Leader: Joe Giunta. Joe Giunta is one of SoFo's most engaging birding teachers and this foray is one of his most popular. The evening starts with a brief slide show and taped calls to acquaint you with our native owls. Then Joe will take you into the woods to call owls in for actual sightings. There is a good possibility that you will see an Eastern Screech Owl and maybe even a Great Horned Owl, whose courtship period begins at this time of year. This walk is for adults, but children over the age of 12 may attend. Bring your binoculars and a flashlight.

Sun 1/17 Bay to Sound Trails: Big Clean-Up #3 (Greenport) 10:30 am – 1:30 pm [Snow date Sun1/23]

With winter here, the time is right to tackle clean-up along Monsell Trail. Join the Group and our partners from North Fork Audubon Society as we take on Big Clean-Up # 3. After hundreds of hours of hard work, Moores Woods is looking great and we are ready to focus our clean-up efforts on the long-neglected Monsell Trail. Given the season, this cleanup will set a modest goal of filling a 5-yard dumpster with debris illegally dumped along the trail. Monsell trail will serve as a vital connection in the Bay-to-Sound Trails project, providing nature trails and bike paths linking Greenport's waterfront to the shore of Long Island Sound. Stop by for an hour or stay for three. We hope to continue our tradition of making this a true community event with families, Girl Scouts and Boy Scouts, Village and Town Board members, and anyone else interested in joining us. Please bring your own gloves. Please contact Jeremy Samuelson to let us know you are coming (so we can have enough bags, drinks, etc.), or if you need additional information: 631-765-6450 ext. 209 or jsamuelson@eastendenvironment.org.

Sat 1/30 Meet Morton's Chickadees (Noyack) 10:30 am – 12:00 pm

The black-capped chickadees of Morton National Wildlife Refuge will feed right out of one's hand! During a short nature walk through the woods to Peconic Bay, we'll spend some time attempting to meet these energetic songbirds up close. The walk is appropriate for the entire family; birdseed will be provided. For reservations or more information, please contact Steve Biasetti at 631-765-6450 ext. 205 or sbiasetti@eastendenvironment.org.

Winter Lecture Series

Sun 1/24 The Wonders of the Winter Landscape 1:00 pm \$25

The Peconic Land Trust and Madoo Conservancy have teamed up to offer a four-part lecture series featuring noted speakers in the horticultural industry. In this first program, Vincent A. Simeone, Director of the Planting Fields Arboretum State Historic Park in Oyster Bay will discuss "The Wonders of the Winter Landscape." The presentation will focus on the interesting characteristics of winter-dormant plants, including growth habit, ornamental fruit, interesting bark, as well as evergreen foliage and texture. Simeone will present ideas on enhancing the aesthetic value and interest of the garden using horticultural treasures such as winter fruiting plants, broadleaved evergreens, conifers and trees with interesting bark. Fee is \$20 per person for Members, \$25 for Non-Members. Reservations may be made by contacting the Peconic Land Trust at 631.283.3195 or by emailing to events@peconiclandtrust.org. Refreshments will be provided following the program.

Seals on Long Island : During the cooler months, some special visitors from the north come to Long Island starting in mid-November. They return to Northern New England and Canada in May. Seals belonging to the Pinniped family (meaning "feather footed" or "winged"), are true seals which lack external earflaps, have torpedo shaped bodies for fast swimming. They have long, sharp claws to help them dig into the ice while climbing out of the water or onto the beach. Unlike sea lions, their front flippers are short and they are referred to as "earless" seals. Their hind flippers are webbed and pointed backwards to help them swim. They have been recorded swimming over 12 miles per hour and have been spotted swimming 70 miles off of the coast of Long Island. Seals haul out of the water to rest, sleep, and warm up in the sun's heat. While on land sunning themselves, they are often seen in a "banana" shaped position. The seals we see on Long Island are most often Harbor seals, but there are a few other types, such as harp seals, grey seals, hooded seals, and ringed seals. Numbers have been increasing in past years into the thousands around Long Island due to the changing location of their food sources and the changing temperatures of their watery habitat. Most of the seals that visit Long Island are younger seals. These marine mammals eat a variety of crustaceans, fish and shellfish like mussels, clams, oysters and squid.

Sat 1/30 It's Not Magic, It's Physics with Dr. Helio Takai 8:00 pm \$13/\$5 students/\$10 Members

A fun way for all ages to learn and be demystified! Physical science serves as the basis of all sciences. If physics is so basic, why do people think it's such a difficult science to understand? Understanding the basics about forces permit us to calculate planetary orbits, satellite orbits, and any motion we know in daily life. Similarly, understanding light is very important: We learn about distant stars and planets by studying the light they emit. Using the same knowledge, we study different materials. Physics can't be that hard! Through a series of simple demonstrations, we will explore physical phenomena that are part of our everyday lives and, by so doing, understand how such phenomena fit into today's science and technology. After the demonstrations, there will be a Q&A session. Presenter: Dr. Helio Takai is a physicist at Brookhaven National Laboratory, teaches at Stony Brook University, is the Director of the MARIACHI Project, and is a Member of Custer's Research Committee.

LONG ISLAND MEADERY 1347 Lincoln Avenue, Ste. 11, Holbrook, NY 11741 631.285.7469

Have you ever heard of mead? Have you ever tried mead? Maybe you tried mead while visiting Europe or at a medieval festival? Have you been told that mead was like beer, a beer with honey or even a wine with honey? Mead has some similarities to these beverages, but it is so much more it deserves its own category. Mead is an alcoholic beverage made from the fermentation of honey as its primary sugar source and is often referred to as honey wine. Being made from honey, one would naturally expect it to be very sweet and although it usually is, it can actually range from dry to very sweet. Mead is usually still, though it can be made sparkling and can range from a mild low alcoholic content up to very high. Mead is arguably the oldest alcoholic beverage on the planet with some evidence dating it back approximately 10,000 years. Due to many different cultural and financial reasons, mead has fallen out of favor over the many years and now we call it the 'oldest alcoholic beverage no one has ever heard of.' A far cry from its hey day when it was referred to as the 'Nectar of the Gods.' Mead can be produced in many variations including a plain honey wine (traditional - honey only), flavored with fruit (melomel), spices (metheglin), vegetables, or any combination of ingredients limited only by the imagination of the wine maker and the resources he has at hand.

Sun 2/14 For My Father 4:30 pm

Israel, Germany | 2008 | Thriller | Hebrew | English Subtitles

Terek, a Palestinian forced on a suicide mission in Tel Aviv to redeem his father's honor, is given a second chance when the fuse on his explosive vest fails to detonate. Forced to spend the weekend in Tel Aviv awaiting its repair, Terek must live amongst the people he was planning to kill. To his surprise he connects with several Israelis on the outskirts of society, including the beautiful Keren, who has cut off contact with her Orthodox family and upbringing. With nothing to lose, Terek and Keren open up to one another, and an unlikely love blooms between two isolated and damaged individuals, raised to be enemies. However, with the deadly load of explosives still strapped to him, he must spend 48 hours in the city, caught between the men that sent him—who can blow up his bomb remotely, the Israeli police patrolling the streets and his new-found companions. Spending this time with Keren and his new friends, Terek discovers the spark of life returning to fill his soul, but when the weekend ends, Terek must make the decision of his life.

Sun 2/21 The Pope's Toilet 4:30 pm

Uruguay, France, Brazil | 2008 | Drama | Spanish w/ English Subtitles

It's 1988, and Melo, an Uruguayan town on the Brazilian border, awaits the visit of Pope John Paul II. 50,000 people are expected to attend, and the most humble locals believe that selling food and drink to the multitude will just about make them rich. Petty smuggler Beto thinks he has the best idea of all—he decides he will build a WC in front of his house and charge for its use. His efforts bring about unexpected consequences, and the final results will surprise everyone.

Sun 2/28 Ben X 4:30 pm Free

Drama | Belgium | English Subtitles

Ben is different. His life is a universe all to itself, where he avidly plays his favorite on-line computer game in an attempt to train for and block out the reality of his daily experiences. Ben has Asperger's Syndrome, a mild form of autism that prevents normal communication and makes him ideal fodder for all the school bullies. As the bullies' relentless attacks push him over the edge and out of control, his on-line dream girl, Scarlite, appears to him and helps him devise a perfect plan to confront the bullies and make them pay for their torment. Director Nic Balthazar's dazzling debut blends fantasy and harsh social realism, based on a true story, to bring us an utterly original and important film.

Fri 2/19 Above the Guinea Sea 7:00 pm

This exciting quartet features West African inspired music and is lead by drummer, percussionist, and composer Henning Stumm. Stumm has toured Europe, Japan, The Carribean, Central America and the United States, and has worked with artists from genres including Jazz, R&B, Neo-Soul, Rap, West African, Pop, Haitian and Afro-Cuban music. The name of this ensemble is a reference to the African based religion found on various caribbean islands and the Louisiana Gulf Coast. The religion stems from the belief that ancestral spirits live in the ocean between the West African nation of Guinea and America because of the slaves who lost their lives during the slave trade.

MONTAUK POINT STATE PARK Montauk, NY 11954 631.668.5000

Seals on Long Island : During the cooler months, some special visitors from the north come to Long Island starting in mid-November. They return to Northern New England and Canada in May. Seals belonging to the Pinniped family (meaning "feather footed" or "winged"), are true seals which lack external earflaps, have torpedo shaped bodies for fast swimming. They have long, sharp claws to help them dig into the ice while climbing out of the water or onto the beach. Unlike sea lions, their front flippers are short and they are referred to as "earless" seals. Their hind flippers are webbed and pointed backwards to help them swim. They have been recorded swimming over 12 miles per hour and have been spotted swimming 70 miles off of the coast of Long Island. Seals haul out of the water to rest, sleep, and warm up in the sun's heat. While on land sunning themselves, they are often seen in a "banana" shaped position. The seals we see on Long Island are most often Harbor seals, but there are a few other types, such as harp seals, grey seals, hooded seals, and ringed seals. Numbers have been increasing in past years into the thousands around Long Island due to the changing location of their food sources and the changing temperatures of their watery habitat. Most of the seals that visit Long Island are younger seals. These marine mammals eat a variety of crustaceans, fish and shellfish like mussels, clams, oysters and squid.

Sat 2/6 Shinnecock Bird Specialties 8:00 am

Walk Leader: Hugh McGuinness. Shinnecock is a highly productive birding site in winter. Join expert birder Hugh McGuinness on this walk to see loons, rare gulls, and winter raptors. There is a good chance you'll see the illusive American Bittern which, if it senses that it has been seen, becomes motionless, with its bill pointed upward, causing it to blend into the reeds.

Sat 2/6 The Big Snow: Story Hour and Craft Time 10:00 am \$1 materials fee

Program Leader: Crystal Possehl, SoFo Nature Educator. What do animals do to prepare for winter? Crystal and her story-time puppet Timmy Wolf will read The Big Snow by Berta and Elmer Hader, and children will find out which animals travel south for the winter, which grow thick warm coats, and which sleep right through the cold. After the story children will make colorful snowflakes to hang in the window. This program is recommended for children 5 years of age and under.

Sat 2/13 Observing Seals 12:30 pm

Walk Leader: Lindsey Rohrbach, SoFo Nature Educator. Lindsey will reprise her popular nature walk to view seals that arrive in our waters in December to become winter residents. Join her on this walk through the deciduous forests of the scenic Seal Haul Out Trail in Montauk and down to the rocky shore, where at low tide you can expect to see Harbor Seals, and an occasional Gray Seal, sunning themselves on the exposed rocks. This is a about a one-half mile walk, so keep that in mind when bringing very young children.

Sat 2/20 Jellyfish? Sweet! 10:00 am \$3 materials fee

Program Leader: Heather Abrams, SoFo Nature Educator. Did you know jellyfish have been around for more than 650 million years, before dinosaurs roamed the Earth? But, what is a jellyfish? Is it really a fish? How many kinds of jellyfish are there? Which ones make their homes in our waters? Join Heather to find out the answers to these puzzling questions and afterward paint a tentacled, paper maché jellyfish of your own. Recommended for children 4 years of age and older.

Sat 2/27 Eastern Tiger Salamander Search 7:30 pm

Walk Leader: Andy Sabin, SoFo President. Herpetologist and SoFo President Andy Sabin will take us into the nighttime woods in search of the largest of our native salamanders, the endangered Eastern Tiger Salamander. Don't miss a rare opportunity to see this salamander as it makes its way to the pond to mate and lay its eggs. Please bring a flashlight and wear boots, as late winter rains will make the ground soggy. This walk is dependent on the occurrence of heavy rains.

BRIDGE GARDENS 36 Mitchell Lane, Bridgehampton, NY 11932 631.537.7440

Winter Lecture Series

Sun 2/14 Paula Hayes, Garden Designer and Artist on "Terrariums" 1:00 pm \$25

*Paula Hayes has worked with ephemeral and organic mediums throughout her career. Her current medium is garden making. Hayes makes each garden an individual and unique portrait of her patrons, thus elevating the garden from simply landscaping to a living artistic relationship. She continues to question the idea of living plants as authored artworks with her new series of glass terrariums. In this body of work plants are literally self-contained in unique hand-blown glass containers. The containers' biomorphic forms project a strong psychological relationship to human form. Roots, plants and objects within the terrarium help shape and contour the vessel, pushing and defining its' form. Working above and below the soil level, Hayes exposes the ever-changing workings of a living system. Paula Hayes lives and works in New York. She received an MFA from Parsons School of Design, NY and a B.S. from Skidmore College, Saratoga Springs, NY. She has had solo exhibitions at Galerie fur Landchaftkunst, Hamburg; AC Project Room, NY; Eigen + Art, Berlin; and her work has been featured in ArtForum, Art in America, The New York Times, Interior Design and House & Garden. (from RGallery.com) **Please note: to be held at Madoo Conservancy, 618 Sagg Main Street, Sagaponack, NY.***

THE CHILDREN'S MUSEUM OF THE EAST END (CMEE) 376 Bridgehampton/Sag Harbor Turnpike, Bridgehampton, NY 11932 631.537.8250

It started with a dream: To create a magical and inviting place for young people that would stir their curiosity and imagination. In this quickly moving world of technology, children's museums give families an opportunity to slow down and actively share in their children's growth. These wonderful places of discovery are designed to provide interactive experiences that foster curiosity in children and create a lifelong love of self-directed learning.

Interactive exhibits will be both permanent and rotating. The permanent exhibit will focus on what makes the East End a special place, with an emphasis on the people and living creatures that inhabit it. Themes include agriculture, fishing, world celebrations, and community. In addition to the indoor activities, visitors will be encouraged to explore outdoor exhibits, mazes and gardens. Plans include space for year-round workshops, performances, and special events, as well as a permanent art workshop for children to explore their own creativity. Reservations required unless otherwise specified. CMEE Museum Hours: Mon, Wed, Thurs & Sat: 9 am-6 pm; Friday is late night at CMEE: 9 am-7:30 pm; Sun: 10 am-6 pm; Closed on Tuesdays Admission: Under 1 year old: FREE; 12 and under: \$5.00; Teens and Grownups: \$7.00; Senior Grownups: \$5.00 YOU MUST REGISTER FOR ALL CLASSES IN ADVANCE.

LIEB CELLARS 35 Cox Neck Road Mattituck, NY 11952 631.298.1942

Sat 2/6 Wine And Chocolate Pairings Weekends In February 1:00 pm – 5:00 pm

Lieb Family Cellars, a boutique winery on the North Fork, and Bon Bon Chocolatier, a gourmet chocolate shop in Huntington, have teamed up once again to pair fine chocolates with award winning local wines. The tasting will include five wines paired with five handmade chocolates, featuring a brut sparkling wine, three different varietals of red wine, and a surprising combination of chocolate and Chardonnay. Each pairing is carefully selected by seeking chocolates that have the same flavor notes as the wines. We hope to demonstrate, by combining similar flavors and nuances, that in the right combination wine and chocolate can harmonize together in a blissful and sinful tasting

Sat 3/20 Concert: A Celebration of Galileo the Lutenist 8:00 pm \$15/\$10 members/\$8 students

Many are unaware that Galileo was an accomplished lutenist. In fact, Galileo's father and brothers were all recognized virtuosos of the lute, both as performers and composers. Last year, in celebration of the 400th anniversary of Galileo's astronomical achievements, the Lick Observatory invited renown lutenist Christopher Morrongiello to appear in concert and perform the works of the Galilei family and their musical contemporaries; Custer is pleased to follow in the Lick's footsteps and host another such performance. Christopher Morrongiello is Director of the Bachelor Consort, a member of the Venere Lute Quartet, and teaches at Hofstra University. Refreshments and observing (weather permitting) will follow.

Fri 3/26 Members' Night: Last Friday of Every Month 7:00 pm Free

A Members-Only (and their guests) evening for mingling, observing, enjoying the observatory and its resources, discussing Custer's present and planning its future together. Coordinator: David Van Popering.

Sat 3/27 How To Use Your Telescope 7:00 pm \$15/\$10 members/\$5 students

Is there a telescope gathering dust in the closet because you don't know how to use it? Perhaps you have been using your telescope but it doesn't seem to be working quite right and you're asking yourself: "Is it me or the equipment?" Or maybe you'd like to buy a telescope and want to know what to consider before making the purchase. This lecture and workshop will provide all the answers. You'll learn all you ever wanted to know about telescopes and receive practical information that will help you get set up and observing. After the lecture, there will be an opportunity for you to receive hands-on help from the instructor and Custer's Observatory Staff so bring your equipment with you. Instructor: Jeff Norwood is a veteran amateur astronomer, telescope mechanic, & owner of Camera Concepts in Patchogue.

Refreshments and observing will follow.

The Naked Stage

The Naked Stage is a working collective of performing artists dedicated to the development of theatre on the East End of Long Island. The members of The Naked Stage believe in the possibilities generated by the collaboration of devoted people. We wish to provide a focal point for the encouragement of theatre and all its associated arts. The Naked Stage: Works in Progress serves as an incubator and laboratory for actors, writers, directors, dancers, composers, musicians and designers to practice and explore their craft free from the constraints of

Ever since Manet, the notion of "finish" in painting has been a hot topic. Alicia Longwell, Lewis B. and Dorothy Cullman Chief Curator, Art and Education, will examine this issue as reflected in the work of modern masters Alex Katz and Fairfield Porter, the subjects of our two upcoming exhibitions. Katz has said, "I like to finish things." Porter quoted Ingres in saying, "I leave it to time to finish my paintings." On Friday, March 12, "Cut to the Finish" - will look at Alex Katz's method of painting and talk about how the process is absorbed in the ultimate image. On Friday, March 19, "The Finished Muse" - for over 50 years Katz has painted his wife and muse Ada. In this talk we will look at their unique partnership. On Friday, March 26, "Dance Steps" - Alex Katz's drawings of the Paul Taylor Dance Company allow us to look at collaboration between artists and dancers. All talks are free with Museum admission. Bring a lunch and museum will provide dessert and beverages.

Fri 3/12 New Global Cinema: "The Lives of Others" 7:30 pm \$7 / \$5 Parrish members

Set in East Germany in 1984, this Oscar-winning film probes the relationship between a captain in the Stasi, the East German secret police, and the successful playwright on whom he spies. A gripping political thriller, the film speaks to current concerns about privacy and the conflict between totalitarianism and art.

Fri 3/19 New Global Cinema: "Distant" 7:30 pm \$7/\$5 Parrish members

Directed by Nuri Bilge Ceylan. With Muzaffer Ozdemir, Emin Toprak, Zuhal Gencer. Turkey. Subtitles. 109 minutes. Winner of the Grand Prix at Cannes, "Distant" is the story of a successful commercial photographer in Istanbul whose ordered life is disrupted by the arrival of a distant relative from the countryside. Though very different from each other - one is fussy, the other a slob - both men share a disconnectedness from life.

Fri 3/19 Fridays at Noon: The Finished Muse 12:00 pm Free with Museum admission

For over fifty years, Alex Katz has painted his wife and muse Ada. In this talk we will look at their unique partnership. Bring a lunch and we will provide beverages and dessert.

Sat 3/20 Special Film Screening: "Dancemaker" 4:00 pm Free

Produced and directed by Matthew Diamond. 98 minutes. Join us for a screening of the Academy Award-nominated "Dancemaker." A dozen works in the exhibition "Alex Katz: Seeing, Drawing, Making" reflect the artist's long-standing collaboration with choreographer Paul Taylor. For fifty years Taylor has been acclaimed for the vibrancy, relevance, and power of his dances. He has received the National Medal of Arts, a MacArthur Foundation "genius" grant, and was awarded France's highest honor, the Legion d'Honneur.

THE WATERMILL CENTER 39 Watermill Town Road, Water Mill, NY 11976 631.726.4628

Tues 3/23 Kevin Doyle: ATM or this is [not] new york Open Rehearsal 6:30 pm Free

The Mill House Inn East Hampton NY - "Your Home in the Hamptons"

Kevin Doyle and his company Sponsored by Nobody are developing *ATM* or this is [not] new york, a new play that investigates New Yorkers' interactions with their city's homeless population and the shifting demographics and values these encounters reveal. The piece will be an installation that simulates the automated teller sections of banks, where the city's homeless have long masqueraded as "doormen" for bank patrons in return for change. A mixed cast of ten actor-dancers will recreate a ritualistic routine of entrances, transactions, interactions and exits. Live cameras will capture dialogue and the stylized physicality of pedestrian gestures. The words and movement comprising the performances will be transmitted via closed-circuit television and multiple monitors.

Sat 3/27 Sun Spot Activity and Earth's Climate 7:00 pm Free

Join members of the Montauk Observatory at the Bridgehampton Public Library for a presentation by Joe Malave, Science Coordinator for Montauk Public School. Sun spots on the sun's surface are violent, planetary-scale magnetic storms that vary in number throughout the 11 year solar cycle. A growing body of evidence is connecting these storms on the sun to short term climate changes on Earth. In this lecture, evidence will be presented to support the connection between variations in space weather, and variations in Earth's climate. The hypothesis that changes in the solar cycle have the potential for longer term climate forcing, will also be discussed.

Food and art join their powerful forces this March and present Celebration. In the definition alone Celebration, an exhibition curated by

The Mill House Inn East Hampton NY - "Your Home in the Hamptons"

Molly Weiss, will showcase a full spectrum of art dealing with juxtapositions, notions of togetherness and the complexities of society asking the viewers to think about "what brings them together". This exhibition includes a ten-foot pasta chandelier installation as well as photography, furniture design, printmaking, sculpture and painting. Looking out at our own backyard, a raffle and portion of the proceeds will go directory to MaryAnn Tupper and the Food Pantry of Southampton. Local friend, Balsam Farm of Amagansett and Quail Hill Farm of Amagansett help make this exhibition possible, donating food for the menu opening night, March 27th. Six of the featured emerging artists are from the East End. This very special exhibition will also include performance artist Andrina Wekontash Smith of Southampton and an open mic for all the writers and poets of the East End on opening night. Supporting locally is the asset that makes our environment so special. We come together. CELEBRATION will take off March 27th with an opening reception from 5:30-9pm, with performances starting at 6. Exhibition runs through until April 11th.

MONTAUK POINT STATE PARK Montauk, NY 11954 631.668.5000

Seals on Long Island : During the cooler months, some special visitors from the north come to Long Island starting in mid-November. They return to Northern New England and Canada in May. Seals belonging to the Pinniped family (meaning "feather footed" or "winged"), are true seals which lack external earflaps, have torpedo shaped bodies for fast swimming. They have long, sharp claws to help them dig into the ice while climbing out of the water or onto the beach. Unlike sea lions, their front flippers are short and they are referred to as "earless" seals. Their hind flippers are webbed and pointed backwards to help them swim. They have been recorded swimming over 12 miles per hour and have been spotted swimming 70 miles off of the coast of Long Island. Seals haul out of the water to rest, sleep, and warm up in the sun's heat. While on land sunning themselves, they are often seen in a "banana" shaped position. The seals we see on Long Island are most often Harbor seals, but there are a few other types, such as harp seals, grey seals, hooded seals, and ringed seals. Numbers have been

The Mill House Inn East Hampton NY - "Your Home in the Hamptons"

increasing in past years into the thousands around Long Island due to the changing location of their food sources and the changing temperatures of their watery habitat. Most of the seals that visit Long Island are younger seals. These marine mammals eat a variety of crustaceans, fish and shellfish like mussels, clams, oysters and squid.

SOUTH FORK NATURAL HISTORY MUSEUM 377 Bridgehampton/Sag Harbor Turnpike, Bridgehampton, NY 11932 631.537.9735

Nature walks & workshops. Call (631) 537-9735 for reservations and information about meeting place. There is no charge for SoFo members. Non-members are charged \$7. Fee includes admission to the museum on the day of the program.

Sat 3/6 A Shark's Tale! 10:00 am \$3 materials fee

Program Leader: Lindsey Rohrbach, SoFo Nature Educator. Sharks, skates, and rays, all in the shark family, are fish that fascinate both children and adults. In this family program learn the similarities and differences between the shark family and "bony fish" as well as other interesting facts that make sharks unique. Children will put together their own shark or ray made from Play-Doh after learning about their body shapes and the behaviors that help them survive in the ocean. Recommended for children 4 years of age and older.

Sat 3/13 Blue-Spotted Salamander Search 7:30 pm

Walk Leader: Andy Sabin, SoFo Board President. Montauk's vernal ponds are one of the few places in the world where the Blue-spotted Salamander, in its purebred form, can be found. Join SoFo on our nighttime foray with SoFo President Andy Sabin, "Mr. Salamander," as we search for this unique native species. Please bring a flashlight and wear boots, as late winter rains will make the ground soggy. This walk is dependent on the occurrence of heavy rain.

Sat 3/20 Bluebird Walk 9:00 am

Walk Leader: Joe Giunta. In this program learn all about our native Eastern Bluebird from Joe Giunta, an experienced birder, engaging teacher, and birding tour leader. First, Joe will offer a short Bluebird slide program, and then it's off to see firsthand this cavity-nesting bird of open country and woodland edge. This walk is for adults, but children over the age of 12 may attend.

Sat 3/27 Spotted Salamander Search 7:30 pm

Walk Leader: Andy Sabin, SoFo Board President. On this walk to one of our vernal ponds we'll be searching for the Spotted Salamander, one of our four native mole salamanders. This salamander is a beauty with its shiny black body and bright yellow spots. It, like the Eastern Tiger and the Blue-spotted Salamander, as well as the early-autumn breeding Marbled Salamander, is called a mole salamander because it spends most of its time underground. Please bring a flashlight and wear boots, as late winter rains will make the ground soggy. This walk is dependent on the occurrence of heavy rain.

Fri 3/19 Read, Learn and Respond: Eating Locally (Southold) 11:30 am – 1:30 pm

Group for the East End and the Southold Free Library will co-sponsor a book discussion to gain perspective about eating locally. Plenty: One Man, One Woman, and a Raucous Year of Eating Locally takes place in the Pacific Northwest, but provides unique lessons that can be used in our area as well. The lunchtime chat will include a discussion of the book and a special presentation. Bring your own lunch or reserve one featuring local ingredients by The Piping Plover Café (\$15). We'll also raffle off a free copy of the HEP Guide to Long Island Farm Stands: Farmers Markets, CSA, and Local Purveyors. The discussion will be held in the community room in the lower level of the Southold Library. Space is limited to 30 participants. To sign up and reserve a lunch please contact Kate Schertel at 631-765-6450 ext. 208 or kschertel@eastendenvironment.org.

Sat 3/20 Are You Volunteering on Team Wild? (Southold) 10:00 am – 12:00 pm

Have you ever come across an injured wild animal and wished you knew what to do to help? If so, this program is for you! Join Group for the East End and the Wildlife Rescue Center for a special training session to become an official member of "Team Wild". Participants (ages 10 and over) will learn about the work of a wildlife rehabilitator and then "meet" some amazing local wildlife species including a great horned owl and red-tailed hawk. Everyone who attends will receive a Team Wild certificate, which qualifies you to recognize and rescue injured animals. For location and other information, please contact Kate Schertel at 631-765-6450 ext. 208 or kschertel@eastendenvironment.org.

Sun 3/28 Early Spring Wildlife on the Barrier Island (Hampton Bays) 12:00 pm – 2:30 pm

Hampton Bays' barrier island provides excellent wildlife-watching opportunities throughout the year. During this early-spring search we hope to find harbor seals, loons, great blue herons, great egrets, long-tailed ducks, snow buntings, marsh hawks, and perhaps a short-eared or snowy owl. Binoculars are required. For reservations or more information, please contact Steve Biasetti at 631-765-6450 ext. 205 or sbiasetti@eastendenvironment.org.

THE NATURE CONSERVANCY Mashomack Preserve, Shelter Island, NY 11964 631.749.1001

THE CHILDREN'S MUSEUM OF THE EAST END (CMEE) 376 Bridgehampton/Sag Harbor Turnpike,

The Mill House Inn East Hampton NY - "Your Home in the Hamptons"

Bridgehampton, NY 11932 631.537.8250

It started with a dream: To create a magical and inviting place for young people that would stir their curiosity and imagination. In this quickly moving world of technology, children's museums give families an opportunity to slow down and actively share in their children's growth. These wonderful places of discovery are designed to provide interactive experiences that foster curiosity in children and create a lifelong love of self-directed learning.

Interactive exhibits will be both permanent and rotating. The permanent exhibit will focus on what makes the East End a special place, with an emphasis on the people and living creatures that inhabit it. Themes include agriculture, fishing, world celebrations, and community. In addition to the indoor activities, visitors will be encouraged to explore outdoor exhibits, mazes and gardens. Plans include space for year-round workshops, performances, and special events, as well as a permanent art workshop for children to explore their own creativity. Reservations required unless otherwise specified. CMEE Museum Hours: Mon, Wed, Thurs & Sat: 9 am-6 pm; Friday is late night at CMEE: 9 am-7:30 pm; Sun: 10 am-6 pm; Closed on Tuesdays Admission: Under 1 year old: FREE; 12 and under: \$5.00; Teens and Grownups: \$7.00; Senior Grownups: \$5.00 YOU MUST REGISTER FOR ALL CLASSES IN ADVANCE.

LONG ISLAND MEADERY 1347 Lincoln Avenue, Suite 11, Holbrook, NY 11741 631.285.7469

Have you ever heard of mead? Have you ever tried mead? Maybe you tried mead while visiting Europe or at a medieval festival? Have you been told that mead was like beer, a beer with honey or even a wine with honey? Mead has some similarities to these beverages, but it is so much more it deserves its own category. Mead is an alcoholic beverage made from the fermentation of honey as its primary sugar source and is often referred to as honey wine. Being made from honey, one would naturally expect it to be very sweet and although it usually is, it can actually range from dry to very sweet. Mead is usually still, though it can be made sparkling and can range from a mild low alcoholic content up to very high. Mead is arguably the oldest alcoholic beverage on the planet with some evidence dating it back approximately 10,000 years. Due to many different cultural and financial reasons, mead has fallen out of favor over the many years and now we call it the 'oldest alcoholic beverage no one has ever heard of.' A far cry from its hey day when it was referred to as the 'Nectar of the Gods.' Mead can be produced in many variations including a plain honey wine (traditional - honey only), flavored with fruit (melomel), spices (metheglin), vegetables, or any combination of ingredients limited only by the imagination of the wine maker and the resources he has at hand.
